

Technical Sheet

SIMPSON

Strong-Tie

XL

Wallgrabb Maxi -levyn kiinnitys

Use indoors for fixing to double plasterboard or lightweight concrete without the need for pre-drilling. The board fixing XL is knocked in with a hammer. Then a Ø3.5-4.5 mm wood or wafer head screw is used. As the board fixing is 30 mm long, use a screw measuring at least 30 mm plus the thickness of the plasterboard or fibreboard.

Features

Ominaisuuudet:

- Pilotettu asennus
- Helppo asennus
- Porausta ei tarvita

Applications

Application:

- Hiekkatiili / Leca / Kevytbetoni
