KEM V Winter Winter Vinylester Anchoring Adhesive for Low Temperature Installation (-20°)

KEM V Winter is a high performance vinylester anchoring adhesive for heavy-duty structural fixings installed in low temperatures. This formula provides high performances when anchoring threaded rods and rebar in cracked and uncracked concrete and masonry. Working temperature: from -40 up to +120°C short period and from -40 up to +72°C long period.

Features

Material

Vinylester

Applications

Applications

- Steel constructions
- Wood to concrete structural fixings
- Industrial construction
- Steel and metal construction (railings, brackets, etc.)
- Anchorages for gates and machines
- Post installed rebar connections

Suitable for

- Threaded rods and rebar in cracked and uncracked concrete
- Threaded rods in masonry
- **Suitable base materials:**

Concrete

Solid brick

Honeycomb

Cell like clay brick

Light weight honeycomb brick

Hollow dense aggregate block

Hollow light aggregate block

Aerated concrete (partially suitable)

Solid stone1)

Wood

1) For application on natural stone or marble, carry out test and wait 24/48 hours for any reactions

For installation instructions and information please refer to technical documents
